

PAPSDA SUPPORT SERVICE

The support service that Papsda is offering is in partnership with Counselling training institutions. Our partnership with these institutions, allows students in their 2nd and 3rd year of their Bachelor of Applied Science (Counselling) to do their practicums at Papsda. We emphasise that we are not offering a registered counselling service. What we offer is a support service that may offer helpful tools to navigate life better. We are also able to refer you on to registered counsellors if you prefer.

If you'd like to use this service please talk to either:
